About Us!

Welcome to Mermaid Mawmas and thank you for supporting our small shop!

My name is Amanda Huggins and I am a Recreational Therapist, Wife and Mompreneur! I started this business not only to create a better life for myself and family but to help others. For years I have suffered through anxiety and depression. By creating quality and creative products, it has allowed my artistic side to shine while helping others reduce stress, enhance mental and physical health. My background as a Recreation Therapist it is my passion to exude health and wellness through a holistic approach to help others to achieve their goals. The idea behind Mermaid Mawmas is to amplify "self care" as so many people are on the go and are constantly taking care of those around them and forget about the most important person... YOU! As a fellow MAWMA my son is my world and my husband my rock. Every day they motivate me and keep me driven to be the best "me" I can be.

Thank you for visiting our site and becoming apart of our Mermaid Mawma Family!

Kind Regards,
Amanda Huggins
